• We are expected to conduct ourselves ethically, honestly, and with integrity in all dealings.

• We are expected to transact all University business in conformance with policies and procedures.

• It is not acceptable to ignore or disobey policies if one is not in agreement with them, or to avoid compliance by deliberately seeking loopholes.

Why Do We Care?
Fraud: Why Do We Care?

The Association of Certified Fraud Examiners (ACFE)
2014 Report to the Nations on Occupational Fraud and Abuse

• ACFE conducted a study of 1,483 cases of occupational fraud that occurred worldwide between January 2012 and December 2013.

Source: Association of Certified Fraud Examiners (ACFE)
Fraud: Why Do We Care?

ACFE 2014 Global Fraud Study

- Survey participants estimated that the typical organization loses 5% of its annual revenue to fraud. Applied to the 2013 Gross World Product, this figure translates to a potential projected annual fraud loss of more than $3.7 trillion.

- The median loss caused by the occupational fraud cases in the study was $145,000. More than one-fifth of these cases caused losses of at least $1 million.

- The frauds lasted a median of 18 months before being detected.

Source: Association of Certified Fraud Examiners (ACFE)
Fraud: Why Do We Care?

• If the ACFE survey participant estimate is extrapolated for UCSB, that would mean a loss of $43,460,350* for fiscal year 2013-14.

• If the estimate is extrapolated for the UC system, that would mean a loss of $1,256,398,000** in fiscal year 2012-13.
  
  o There is no reason to believe that the amount would hold true for UC, but it does give us reason to redouble our efforts to prevent fraud.

**Based on total revenue figures from the UC Revenue and Expense Trends Report
